2018 Membership Opportunities

Annual Plan A
For an individual for one year
\$39.00 per month
provides 2 visits per month
Additional visits \$20.00

Six-Month Plan
For an individual for six months
\$49.00 per month
provides 2 visits per month
Additional visits \$20.00

Annual Plan C
For a family for one year
\$59.00 per month
provides 4 visits per month
Additional visits \$10.00

We care about your health!

Dear DEVILer... As a volunteer at our local hospital I discharge patients by wheelchair and take them to the hospital lobby. The hospital always provides me with the name and date of birth.

I love to discharge patients from the L&D floor (Labor & Delivery) because I enjoy seeing the new babies.

I recently got a call for a L&D discharge and the mother's birthday was in late 1958. Well, after a quick calculation I realized that this woman was near 60 years old. When I got to her room I introduced myself and said I'm here to discharge you and your baby by wheel chair.

She informed me that she had a hysterectomy ... not a delivery. Her husband then chimed in and then said, "They removed the "cradle" and left the 'play pen'".

Albert F. Canton, Michigan

The TAX System, Explained in Beer!

Suppose that every day, ten men go out for beer and the bill for all ten comes to \$100. If they paid their bill the way we pay our taxes, it would go something like this...

The first four men (the poorest) would pay nothing. The fifth would pay \$1. The sixth would pay \$3. The seventh would pay \$7. The eighth would pay \$12. The ninth would pay \$18. The tenth man (the richest) would pay \$59.

So, that's what they decided to do.

The ten men drank in the bar every day and seemed quite happy with the arrangement, until one day, the owner threw them a curve ball. "Since you are all such good customers," he said, "I'm going to reduce the cost of your daily beer by \$20". Drinks for the ten men would now cost just \$80.

The group still wanted to pay their bill the way we pay our taxes. So the first four men were unaffected. They would still drink for free. But what about the other six men? How could they divide the \$20 windfall so that everyone would get his fair share?

They realized that \$20 divided by six is \$3.33. But if they subtracted that from everybody's share, then the fifth man and the sixth man would each end up being paid to drink his beer.

So, the bar owner suggested that it would be fair to reduce each man's bill by a higher percentage the poorer he was, to follow the principle of the tax system they had been using, and he proceeded to work out the amounts he suggested that each should now pay.

And so the fifth man, like the first four, now paid nothing (100% saving). The sixth now paid \$2 instead of \$3 (33% saving). The seventh now paid \$5 instead of \$7 (28% saving). The eighth now paid \$9 instead of \$12 (25% saving). The ninth now paid \$14 instead of \$18 (22% saving). The tenth now paid \$49 instead of \$59 (16% saving).

Each of the six was better off than before. And the first four continued to drink for free. But, once outside the bar, the men began to compare their savings.

"I only got a dollar out of the \$20 saving," declared the sixth man. He pointed to the tenth man, "but he got \$10!"

"Yeah, that's right," exclaimed the fifth man. "I only saved a dollar too. It's unfair that he got ten times more benefit than me!"

"That's true!" shouted the seventh man. "Why should he get \$10 back, when I got only \$2? The wealthy get all the breaks!"

"Wait a minute," yelled the first four men in unison, "we didn't get anything at all. This new tax system exploits the poor!"

The nine men surrounded the tenth and beat him up.

The next night the tenth man didn't show up for drinks so the nine sat down and had their beers without him. But when it came time to pay the bill, they discovered something important. They didn't have enough money between all of them for even half of the bill!

And that, boys and girls, journalists and government ministers, is how our tax system works. The people who already pay the highest taxes will naturally get the most benefit from a tax reduction. Tax them too much, attack them for being wealthy, and they just may not show up anymore. In fact, they might start drinking overseas, where the atmosphere is somewhat friendlier.

David R. Kamerschen, Ph.D. Prof. of Economics.

**Due to USPS Standard Mail/Permit Cost Increases...
subscription rate is now \$26.00!.**

The SOUTH JERSEY DEVILER

P.O. Box 691 Elmer, NJ 08318-0691
www.thesouthjerseydevil.com

Anal Subscription Fee (one year) \$26.00

The Deviler is published monthly, that means there are 12 issues per year.

Do Not Send Cash... Check or Money Order Only! NO Credit Cards

Gift Subscriptions will also include Your name.

The DEVILER will not be responsible for lost, stolen or un-deliverable papers in the mail. USPS will NOT forward Standard Mail!

"For Standard mail there is no guaranteed delivery time." USPS

Important Note: Seasonal address changes MUST be submitted (by mail) two months prior to change. The SJD Can Not & Will Not keep or save a running record of your seasonal address changes.
