

(D-NY) Rep. Alexandria Ocasio-Cortez's **Green New Deal Bill** is a strange hybrid of environmental and social legislation designed to make the US carbon neutral and to ensure financial security for everyone whether they want to work or not.

"Today is the day that we truly embark on a comprehensive agenda of economic, social and racial justice in the United States of America," the *New York Democrat* said on the steps of the Capitol as she unveiled her plan.

The DEVILer is not pulling your finger with the following statement: **There are plenty of people willing to cosign this bill, including our own 2020 presidential hopeful NJ Democrat Senator Cory Booker.**

His defense of the **Green New Deal** at a campaign stop in Iowa on 2/8/19. "This is going to be the New Deal, the Great Society, the Moon Shot, the Civil Rights Movement of our generation. She (referring to Cortez) also has said that her blueprint for the kind of mobilization this would require would be like defeating the Nazis in World War II. Well, not really, at least in this circumstance. **The Green New Deal, if followed through upon, would impose impossible challenges upon America, such as eliminating most air travel. "we aren't sure that we'll be able to fully get rid of farting cows and airplanes that fast."**

No shit!... the DEVILer is not butt trumpeting... **Presidential hopeful Booker compares the 'Green New Deal' to fighting Nazis, and Landing on the Moon.**

A liberal is just a conservative that hasn't been mugged yet.

At a jewelry store, a young man bought an expensive friendship ring as a present for his girlfriend. "Don't you want her name engraved upon it?" asked the jeweler.

The young man thought for a moment, and then, ever the pragmatic, steadfastly replied, "No, just engrave it: To My One And Only Love. That way, if we break up and she throws it back to me in anger, I can use it again."

NJ Attorney General **Gurbir Grewal** has issued a sweeping directive to state, county, and local law enforcement agencies to limit the type of assistance their officers can offer federal immigration authorities.

The directive marks the latest front in the war between I immigration advocates who demand strict separation between state and federal law enforcement, and **Trump administration officials who insist that local police must help catch undocumented immigrants.** Trump has dramatically clamped down on both legal and illegal immigration and criticized the so-called sanctuary cities/states that won't help ICE do its job.
