What kind of bagel can fly? A plain bagel
How do you hold a bagel back? You put lox on it.
Why do seagulls fly over the sea? If they flew over the bay, they would be bagels!

Five year old Joey was practicing the violin in the living room, while his father was reading the Deviler.

Duke, the family dog was there as well and was howling at the violin screeching sounds.

Joey's father listened to Duke and the violin for as long as he could. Then he jumped up, threw his funnypaper on the floor and shouted, "For crying out loud Joey, can't you play something that dog doesn't know"?

A son called his mother in Florida. "Mom, how are you"?

"Not too good", said the mother. "I've been very weak".

The son said, "Why are you so weak"?

She said, "Because I haven't eaten in 32 days".

The son said, "That's terrible. Why haven't you eaten in 32 days"?

The mother answers, "Because I didn't want my mouth to be filled with food if you should call".

+ Hey DEVILer... There are three kinds of people: those who can count & those who can't.

Did you hear this in the mainstream media? In 2015, the European Space Agency revealed that in 2013 and 2014, arctic ice increased by as much as 33%.
Mainstream media reported just the opposite, that arctic ice is melting at an alarming rate?

Check out these DEVILer Comedy Shows:

LOOK! For the announcement of a few DEVILer's Comedy Club soon....

A True South Jersey Story

After having dug to a depth of 10 feet last month outside of the city of Bridgeton, NJ scientists found traces of copper cable dating back 100 years. They came to the conclusion that their ancestors already had a telephone network more than 100 years ago.

Not to be outdone, archaeologist of Vineland, NJ, dug to a depth of 20 feet only to report a finding of 200 year-old copper cable, have concluded that the city of Vineland already had an advanced high-tech communications network a hundred years earlier than the city of Bridgeton.

In a follow-up story the South Jersey DEVILer reported the following: "After digging down about 30 feet deep in his garden located in the town of Port Norris, NJ a self-taught archaeologist, (formerly an oysterman) reported that he found absolutely nothing, therefore he concluded that 300 years ago, Port Norris had already gone wireless".

Just makes a person proud to be from Port Norris, New Jersey.

Please don't keep this Funny Paper to yourself... Give it to those who need a laugh.

This little bit of information will flip you out!

Storing sour cream or cottage cheese upside down can help them last longer. This is because keeping them upside down creates a vacuum in the container, slowing the growth of the bacteria that causes them to spoil.

The SOUTH JERSEY DEVILER

P.O. Box 691 Elmer, NJ 08318-0691
www.thesouthjerseydevil.com
